Projects

Todo List (Hosted app | github) | *Angular+Typescript, PrimeNG*   **July 2024**

- Developed a dynamic task management application using Angular, featuring task prioritization, filtering, along with smooth UI/UX enhancements using PrimeNG and Tailwind CSS.
- Implemented search functionality with filters for tasks by name and due date, utilizing PrimeNG components for responsive design.

Github User Search (Hosted app | github) | *Angular+Typescript, Rxjs*   **August 2024**

- Created a GitHub User Search application that fetches user profiles and repositories using the GitHub API.
- Implemented pagination for repository results, ensuring efficient navigation and a smooth user experience.

Tic-Tac-Toe BoardGame (Hosted app | github) | *Angular+Typescript*   **September 2024**

- is an interactive web game where you can challenge a friend or challenge a computer on a 3x3 grid.
- Take turns placing Xs and Os to see who can line up three in a row first

Self Portfolio (Hosted app | github) | *Angular+Typescript*   **September 2024**

- Developed a personal portfolio website using Angular for a modern and responsive design.
- Explore my showcased projects, skills, and contact info, all presented through a user-friendly interface.
